

Haseeb Ahmad

✉ haseebahmad0160@gmail.com | 🌐 github.com/Haseebx162006

Skills

Languages: C, C++, Java, Dart, Python, SQL, C#

Backend: FastAPI, Node.js, REST APIs, JWT, RBAC

Frontend: React, Flutter, Responsive UI

Databases: MySQL, PostgreSQL, Firebase, MongoDB

Tools: Git, Linux, Docker (basic), Postman, VS Code

Education

COMSATS University, Lahore Campus

Feb 2025 – Feb 2029

B.S in Computer Science

CGPA: 3.93 / 4.00

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures & Algorithms, Databases, Operating Systems, Discrete Mathematics

Project Work

COMSOC

[Link to Website](#)

- A SaaS platform for managing educational and student societies at COMSATS University. Allows societies to manage members, events, and activities through a centralized web interface. Designed to simplify society operations and improve event coordination. **Official Platform used by COMSATS**

H-Cloud(React + FastAPI)

[Link to Project](#)

- Web-based file storage system supporting secure file upload, download, and deletion. Implemented authentication, access control, and PostgreSQL integration for managing file metadata.

GDGOC COMSATS

[Link to Project](#)

- **Tech Co-Lead** - Maintaining the website and adding new features to enhance user experience.

E-Commerce Application (React + FastAPI)

[Link to Project](#)

- Full-stack e-commerce platform with features including user authentication, product catalog, shopping cart, order management, and payment integration. Implemented JWT authentication, role-based access control (Admin, Seller, Customer), and PostgreSQL database management.

Certifications

- **Python and Data Science** – IBM Completed a comprehensive course covering Python programming, data analysis, and basic machine learning concepts.
- **Game Development in Unity** – Coursera Learned the fundamentals of game design and development using the Unity engine, including gameplay mechanics and scripting.
- **Flutter Development** – Udemy Gained practical experience in building cross-platform mobile applications using Flutter and Dart.

Awards

- **Dean's List (3×)** – Top performer of the batch for three semesters, COMSATS Lahore
- **4th Position** in Competitive Programming at **University of Education**
- **1st Position** in Physics Exhibition: Arduino robotic car with voice, RC, and obstacle avoidance

Interests

- **App Development**– Exploring new trends in Mobile dev and inventing scalable Solutions
- **Cyber Security** – Hunting bugs and finding Vulnerabilities
- **Backend Development** - Interested in building server-side applications, APIs, and working with databases.
- **Competitive Programming**– Practicing algorithms and problem-solving challenges
- **Listening to Music**– Enjoying music to relax and stay motivated
